

Shepherd' s Al ternati ve

Open-minded discussions of faith

God – Christianity – Creation – Spirituality

Explorations in ...

Discipleship, Community, Sustainability,
Radical Hospitality, Peace and Justice.

Open and Inclusive Group

Come Journey wi th Us!

Shepherd's Alternative is a community of students who are seeking and exploring ways to live out their Christian faith. While this group is connected with the Episcopal Church of the Good Shepherd, you do not need to be an Episcopalian to attend – everyone is welcome in this open, inclusive group! Building relationships with each other, the community, creation and God are important aspects of our life together. We pursue this through fellowship, conversation, worship and service opportunities along with food and fun!

Collaboration is an important part of our life together. We partner with the following groups ...

Lutheran campus ministry on Wednesday's for devotions, dinner and lively conversations focusing on contemporary issues of faith for our lives. Retreats, activities, trips and service projects are also undertaken by this group. Please join us any Wednesday from 5:00 – 7:00 pm for fun, food and fellowship!

Living the Questions is a progressive, contemporary Christian approach to exploring faith, the bible and religion. This ecumenical group meets every Thursday from 12-1 pm at Baker Center in Room 229.

Organic Farming with the [Common Friars and Good Earth Farm](#) is a great way to help feed the hungry in our county. This intentional faith community produces high quality produce that is distributed to local food pantries, homeless shelters and soup kitchens. Come volunteer on the farm and join us on Tuesdays for worship at 5:30 pm followed by supper and conversation. Directions and rides are available. Call Paul Clever at (740) 594-2425 for more information.

Book Drives for Better Lives. We are collecting college text books at the end of each quarter to support literacy around the world! Check out www.betterworldbooks.com for more information.
